

Kraft-Tex Mini Wallet Card Holder Suggestions

1. If you use 8 ½ X 11 pieces of Kraft-Tex, you can make 2 wallets out of 1 piece.
2. If you make the contrasting strap half the width of the pattern as I did, you can make 4 wallets with contrasting straps out of 2 pieces of Kraft-Tex with no waste. I used a smaller 7/16" snap.
3. I bought a Kraft-Tex Sample Pack in bright colors from Amazon, but Stitchin' Post sells Kraft-Tex by the piece, and also has scrap bags of several bright pieces. It is easy to sew contrasting pieces together to get the size you need.
