

## TISSUE HOLDER

### Supplies

4 fabric rectangles 4" x 5 $\frac{3}{4}$ " (use at least 2 different fabrics that coordinate)  
2 4" fabric squares (may use the same fabric as rectangles or other coordinated fabrics)  
Button  
Small package of pocket tissues

### Instructions

Place two rectangles with **WRONG** sides together - one of these will be the bottom and the other will line the inside.

Fold remaining 2 rectangles and press so that they measure 2 $\frac{1}{2}$ " x 5 $\frac{3}{4}$ ".

Fold squares in half and press so they measure 2" x 4".

Layer fabric pieces, starting with the 2 rectangles with wrong sides together. Lining piece should be face down. Next, place the folded rectangles with folded edges facing one another at the center. Place one pressed square on each end of rectangles with folded edges toward center. One square should be tucked under the lower rectangle and the other square should be tucked under the upper rectangle. Check to be sure that all folded edges are facing the center and raw edges are even. Pin in place and stitch around all sides with a  $\frac{1}{4}$ " seam. Finish seam with zigzag stitch or serge if desired.

Turn right side out and add decorative button. Insert package of tissues.
